SCIAP Funds Requests

Purpose	To provide information about SCIAP (Specialized Care Incentives and Assistance Program) and instruction for requesting the funding for children with special needs.
Approved	This policy was approved by Mike Ryan, Director of CFS, on July 1, 2008. <i>Signature on file.</i>
Background	<p>SCIAP was initially provided under Senate Bills 370 (Chapter 1294, Statutes of 1989) and 35 (Chapter 69, Statutes of 1993) and was intended for use during one fiscal year. However, it has continued each year as a source of support for children with special needs.</p> <p>Five percent of the estimated state cost for foster care is added to the budget each year for children's special expenditures under SCIAP and is distributed among all 58 California counties. Annual allocations are based on the county's number of placement homes and include licensed homes, relatives, non-relative extended family members (NREFMs) and non-relative legal guardians. Group home placements are not included.</p> <p>Expenditures are charged against the county's allocation and are 100% state funds.</p> <p>This revision clarifies the process of requesting the funding.</p>
Legal Mandates	<p>Welfare and Institutions Code (WIC) Section 11461(e)(4)(B) requires a total of 5% of the annual state foster care budget be added and made available to counties for assistance with specialized care placements.</p>

[All County Letter \(ACL\) 93-85](#), dated November 1, 1993, provided initial instructions for SCIAP implementation.

[ACL 94-88](#), dated October 18, 1994, and [ACL 95-54](#), dated September 14, 1995, continued instructions for accessing SCIAP funds.

[All County Information Notice \(ACIN\) I-113-00](#), dated November 30, 2000, provided additional information on SCIAP funds.

[County Fiscal Letter \(CFL\) 07/08-28](#), dated November 6, 2007, provides the most recent allocation of SCIAP funds (at the time of this publication) for Orange County.

POLICY

SCIAP Funds

The purpose of SCIAP funds is to assist counties with providing activities and/or equipment needed by children who present special needs in out-of-home placements. Funds are to be used for the direct benefit of children who require additional care and supervision due to health and/or behavioral problems. Specifically, the funding is for:

- A. Respite care services and/or maintenance of a respite program. In Orange County, this resource is used for special medical respite services which are not funded by Children and Family Services (CFS) contracted respite services.
- B. One-time purchases of goods/equipment for children that are not allowable within the foster care specialized care system and not available from other sources. Possible needs that SCIAP funding can support may include:
 - 1. Specialized wheelchair ramps.
 - 2. Specialized strollers.
 - 3. Feeding chairs or trays.
 - 4. Generator or back-up batteries for special equipment.
 - 5. Any equipment that will stimulate a child's physical and/or emotional growth.

- C. One-time purchases of services for children that are not allowable within the foster care specialized care system and not available from other sources. Possible needs SCIAP funding can support may include:
 - 1. Orthodontia or glasses.
 - 2. Psychiatrist or psychologist visits.
 - 3. Art or music therapy recommended by a professional.
 - 4. Any activity that will stimulate a child's physical and/or emotional growth.

Three distinct procedures are used to request funding for the three defined areas of a child's special need.

Eligibility

Children eligible to receive SCIAP funds are those who:

- A. Have a health and/or behavioral need that requires additional care and supervision. These children may or may not be in receipt of a specialized care increment (SCI).
- B. Are residing in a foster, relative, NREFM, or non-relative legal guardian home. Group home placements are not included.
- C. Are receiving an Aid to Families with Dependent Children-Foster Care (AFDC-FC) payment OR are placed with a relative and receiving California Work Opportunity and Responsibility to Kids (CalWORKs) because federal linkage requirements have not been met for federal foster care funding.

**Requests—
Medical Respite**

Respite needs within Special Medical placements may be requested from SCIAP funds using *Special Medical Respite for Foster Parents Reimbursement Payment Form, F063-25-514*. The form will be completed, approved, and submitted to **SSA Accounting**.

Payments for these needs are by reimbursement only, with a pre-approval process required. A W-9 is also required to be on file, completed by the caregiver receiving reimbursement documenting his/her Taxpayer Identification Number. The Special Medical Placement Coordinator manages the approval and payment process.

**Requests—
Goods and
Equipment**

One-time purchases of goods/equipment may be requested from SCIAP funds if other sources have denied funding for the child's specific need. To request the item, an email with an attached *Facility Work Request, Form F063-25-218*, noting the purchase needed, will be completed by social work staff. The request will be routed and approved electronically by appropriate levels of management and sent to **Facilities Operations**, who will process a requisition for the purchase.

The following documentation will be necessary to request SCIAP funds:

- Letter of justification (e.g., physician/dentist/therapist statement of child's need)
- Price quote for item from three vendors/providers
- Current minute order confirming child's dependency status

**Requests—
Services**

One-time purchases of services may be requested from SCIAP funds if other sources have denied funding for the child's special need. *SCIAP Funds Request, Form F063-25-320*, will be completed and submitted to appropriate management levels to request pre-approval of the identified services.

The following documentation will be attached to the form:

- Letter of justification (e.g., physician/dentist/therapist statement of child's need)
- Cost quote from service provider
- Current minute order confirming child's dependency status

Services will begin after pre-approval signatures are obtained from the appropriate management level. The invoice(s) for payment will be submitted after services are completed, or as services are rendered for ongoing treatment, such as orthodontics. *SCIAP Funds Request* will be completed and submitted to **SSA Accounting** with invoice(s) and a copy of the pre-approval packet attached.
